

Amalgamated Hyperdrive 578-R Space Transport

The 31.5-meter long 578-R Space Transport by Amalgamated Hyperdrive is a modestly designed ship that has its share of manufacturing problems. The Corellian company (Whose full name is Amalgamated Hyperdrive and Refuse Management) went bankrupt after repeated safety recalls drained the profits built up after initial sales. Though the ship is designed to be modular, many 578-R Space Transports came off assembly lines incomplete. Sometimes a finished ship is missing a crucial piece, such as a hyperdrive motivator or an inertia dampener. Others suffer more subtle problems that are not apparent until a dangerous moment, such as transparisteel viewports coming loose during space travel, or sensor systems burning out during a tricky landing.

Most of the flawed transports are recalled or otherwise removed from the market, but those 578-R Space Transports still in use are a hit with mechanics and outlaw techs that looking to customize a ship and make it their own. Additionally, the 578-R uses components of contemporary Corellian Engineering Corporation designs. In fact, some of the ship's systems are licensed from CEC engineers, so finding replacement parts for the 578-R is exceptionally easy.

Colossal Space Transport

Init -5; **Senses** Perception +5

Defense Ref 12 (Flat-Footed 12), Fort 24; +12 Armor

HP 100; **DR** 15; **Threshold** 76

Speed Fly 12 Squares, 3 Squares (Ship Scale); (Max Velocity. 800 km/h)

Ranged Laser Cannon +1 (See Below)

Fighting Space 12x12 squares or, 1 square (Starship Scale);

Base Attack +0; **Grapple** +34 **Attack Options** Autofire (Laser Cannon)

Abilities Str 39, Dex 10, Con -, Int 12

Skills Initiative -5, Mechanics +5, Perception +5, Pilot -5, Use Computer +5

Crew 4 (Normal Crew Quality); **Passengers** 10

Cargo 40 Tons; **Consumables** 4 Months; **Carried Craft** None

Hyperdrive x3, Navicomputer

Availability Licensed; Cost 75,000 (28,000 used)

Emplacement Points 4

Laser Cannon (Gunner)

Attack Bonus +1 (-4 Autofire), **Damage** 4d10x2

578-R Space Transport

1 square = 1.5 meters

1. Bridge
2. Stairwell to Lower Deck
3. Crew Lounge
4. Airlock & Dorsal Hatch
5. Crew Cabins
6. Engine Room
7. Stairwell to Upper Deck
8. Medical
9. Cargo Hold / Workshop
10. Junk Receptacle
11. Boarding Ramps

Upper Deck
